OUR HISTORY

Since 1993, PAA has made bathtubs by hand in our factory on the outskirts of Riga. The journey started when three friends - a doctor, a physicist, and a carpenter joined forces to create an original, high-quality bathtub. Our products are still produced by hand. It takes a human eye to know when the process is done right, and it takes human hands to get it that way. We strive for perfection, knowing that our products will be with you for decades.

ADVANTAGES

- Our products are hand finished, made by skilled designers, artisans and engineers who take pride in what they do.
- We put our customers comfort first, its gives us ability to tailor-make and customize products and entire solutions.
- We value relationships, the experience exchange where everyone brings something to the table and everyone gains and benefits.
- Experience in producing Private Label products for the TOP3 companies in the industry.
