

~paa~

PAA`s roots are in manufacturing, but our passion lies in creativeness.

Over the 30 years, we have grown in technological competence. Our products are hand-finished to the finest perfection.

Artistic communicative language complements our appealing and nuanced products.

We create nice baths!
For a deeply personal pleasure.

Peteris Treicis

founder and CEO of PAA

PAA manufacturing

From the very beginning PAA has manufacture all of the products and tooling in-house in the factory that lies in outskirts of Riga.

Based on 30 years of experience PAA has acquired technological expertise and mastered skills that allow to manufacture ever more elegant and durable products.

PAA manufactures using the highest quality materials and the most modern technologies, however all products are hand finished to the finest perfection.

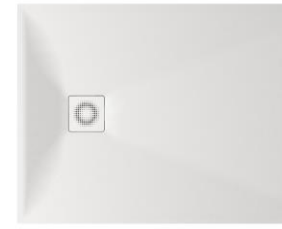

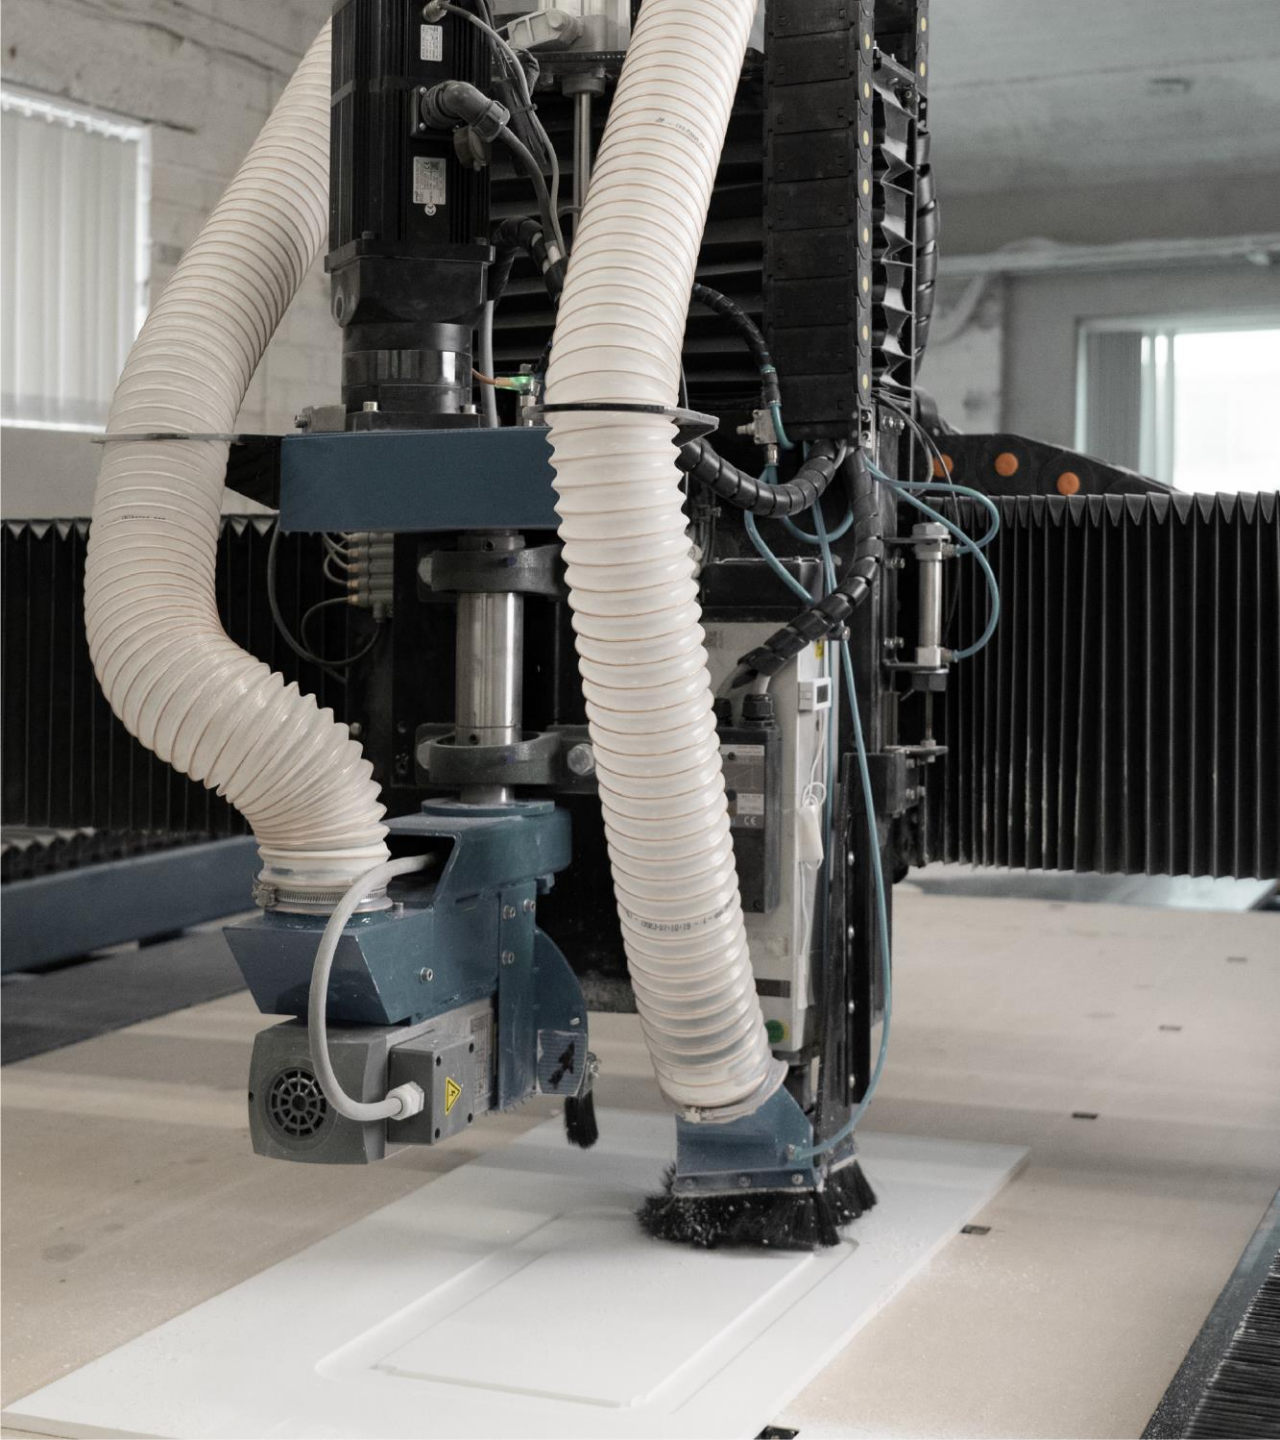

Bathtubs

Washbasins

Shower trays

Made to Measure

Washbasins, bathtubs and shower trays custom tailored to individual bathroom designs. Individually made from the finest quality Silkstone to match exact specifications.

PAA regional leader

Being a Latvian company and starting out in our own market, PAA overgrew the borders of the country and became the leader of the Baltic region.

The success is based on:

deep understanding of manufacturing striving
to achieve lasting design qualities
responsible and personal relationships
with our partners.

This has enabled to deliver products that resonate
and work closely with the strongest partners
in the region.

PAA exports 2/3 of our products.

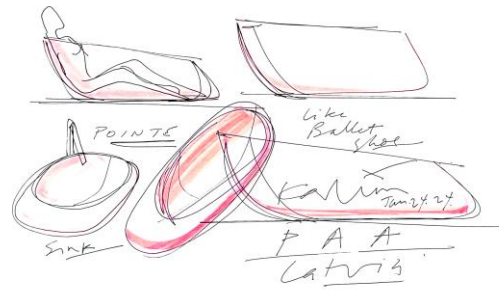

global niche player

Collaboration with leading designers, unwavering quality standards, and experience have created a niche for PAA in international markets.

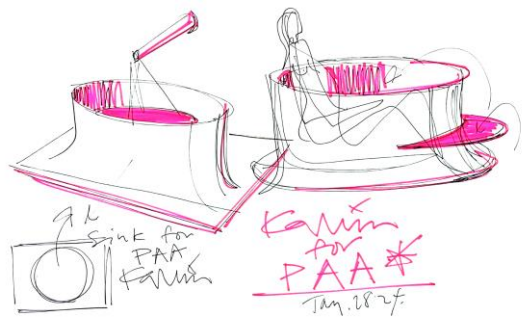

The PAA team's ability to boldly create outside the "risk-free" zone is a testament to the global potential of the PAA brand.

Karim Rashid

PAA design

Sophisticated PAA Design is mostly created in-house, but our portfolio also includes collaborations with industry-leading designers, like Massimo Farinatti and Karim Rashid.
